Antinol
RAPID
EAB-277™

Antinol - FOR LIFE

EAB-277™ = Enhanced Animal Blend

A patented marine lipid oil which is a blend of two exclusive extracts formulated so they combine together to be more effective at inhibiting inflammation than either ingredient alone.

This is called nutrient synergy.

Excipient: 100mg proprietary Oleic acid

- ◆ Highly bioavailable phospholipid delivery
- ◆ Full Spectrum Omega 3
- ◆ OTAs (octadecatetraenoic acids) & ETA (eicosatetraenoic acid)
- ◆ Furan Fatty acids, Choline and Astaxanthin

100% Satisfaction and Palatability Guarantee

If you are not 100% satisfied with your initial purchase, then please return the product to your veterinarian for a full refund within 45 days.

For further information please contact your vet.

Antinol® - FOR LIFE

Antinol® Rapid is a potent blend of two marine lipid concentrates chosen for their unique nutrient synergy.

Formulated to promote optimal benefits this enhanced blend EAB-277™ contains the full spectrum of all known Omega 3's in highly bioavailable form as well as other vital Polyunsaturated fatty acids (PUFAs), nutrients and antioxidants.

- Suitable for long term use
- 100% natural, patented and stabilised oil – contains no mussel powder
- Free from mercury, cadmium and other heavy metals. Clear from toxins
- No synthetic preservatives or fillers
- Fully traceable and sustainable
- No known contraindications †

† The safety of this product has not been tested in pregnant or lactating animals. May contain a minute amount of tropomyosin protein.

**NATURAL ANTI-INFLAMMATORY
JOINT HEALTH & MOBILITY
GENERAL WELLNESS**

What is the standard dose that I should be giving my dog?

The amount of Antinol® *RAPID* you give will depend on the weight of the dog and the severity of their symptoms. **LOAD** or double the daily recommendation for the first 2 weeks or if recommencing after a break of 5 days. A general guideline is:

	Up to 22kg	Over 22kg	Timeframe
Loading dose	2-4 capsules daily	4 capsules daily	2 weeks or as vet recommends
Maintenance dose	1-2 capsules daily	2 capsules daily	Continual

When supplementing for wellness/prevention, Antinol® *RAPID* can be used without a loading period and under recommended maintenance dosage guidelines.

	Up to 22kg	Over 22kg	Timeframe
Recommendation	1 capsule	1-2 capsules	Daily / Every other day

Who can take Antinol® RAPID?

All dogs at any life stage including dogs with known joint conditions/conformation issues, sporting & working dogs to assist performance and recuperation, young dogs to support omega 3 demands, senior dogs who are slowing down, dogs who require extra cognitive, cardiovascular and renal function support, and dogs requiring assistance with skin and coat health.

Why do the capsules vary in appearance?

The capsules are not bleached and remain as natural as possible. Each capsule will have slight variations that will wax and wane depending on storage conditions. Fatty acid crystals may appear within the capsule and look like cloudy sediment. This is normal and does not affect the integrity, safety or efficacy.

How to feed Antinol® RAPID to my dog?

As a small gel capsule most dogs easily accept either as treat or placed in food bowl. In rare cases when this is refused, administer as you would a tablet or pierce the soft gel and mix the oil in food.

Can Antinol® RAPID be used alongside other supplements/medications?

There are no known contraindications when used alongside medications and it is suitable when there is an inability to take traditional NSAIDs. With supplements we recommend to be mindful of not overloading Omega 3 requirements when adding anything else marine based.

What is the best way to store Antinol® RAPID

Store at room temperature or below. Keep out of sunlight and away from heat/humidity. In summer and hotter climates it is best stored in the refrigerator.
